

Platform Guide Series - Adviser Edition

VCT SERVICE: ROLLING REINVESTMENT PROGRAM

AN INTRODUCTION TO GROWTHINVEST

EFFICIENCY / SCALE / CONTROL

At GrowthInvest, we make tax-efficient and private investments more accessible to wealth managers, financial advisers, and their high value clients. We provide tailored digital solutions enabling efficient execution and ongoing administration of private asset portfolios, alongside the ability to consolidate and onboard existing assets.

GrowthInvest gives you a single clear view of your clients' alternative investment portfolios.

DID YOU KNOW...

One of the key ways to maximise the benefits of the GrowthInvest platform is to transfer on the rest of a client's alternative portfolio. This provides a great basis for further investment decisions, including our rolling VCT reinvestment solution, as well as ensuring a single account for the flow of dividends and exits, and bringing all administration, reports and documents under one roof.

Our experienced on boarding team of analysts will ensure that every client portfolio is accurately reflected with the latest valuations, full transactional history, and is backed by all the relevant documentation. This provides the starting point for the ongoing support of the portfolio, including a clear view and identification of VCT assets that may be able to be incorporated into an innovative VCT reinvestment program.

Best of all, we manage the whole process from start to finish. Read on to find out more about consolidating your client's VCT portfolio on GrowthInvest and using an intelligent reinvestment program.

A GUIDE TO ONBOARDING VCTs

GrowthInvest offer all our clients the unique ability to bring on and consolidate their historical and legacy alternative and tax efficient investments. The 4 simple steps below are all managed carefully by our experienced client services team in conjunction with your administration team, and the client. We ensure that the whole process is kept as simple and clear as possible.

1. Open a GrowthInvest Account

Once a financial intermediary account has been set up, it is straightforward to set up new clients and submit account applications.

Our account set up and ID checks are typically completed within 48 hours.

2. Portfolio Preparation & Analysis

Collect, scan and send all relevant information and documents (eg tax certs, share certs) to Growthinvest.

We will analyse the portfolio and provide detailed feedback. Once everything is clear and confirmed, we prepare the relevant documentation for client signature (e.g. Letters of Authority, Share Transfer documents).

3. Client Sign Off & Portfolio Transfer

Documents are sent to the relevant 3rd party fund managers, custodians and nominees.

We continue to liaise and monitor progress until confirmation is received and all reporting, access and transfers into the GrowthInvest CREST account are complete.

4. Log in to Review the Portfolio

Once the process is complete, all assets will be visible within the client portal alongside transactional level information and a host of portfolio reports.

Updates, documents and all dividends from across the portfolio all flow directly into the client's platform account.

LEGACY ASSET PROCESS OVERVIEW

1. ANALYSIS AUDIT & PLATFORM REPORTING

PREPARATION

OVERALL PROGRAMME: 4-16 WEEKS

- Initial analysis of all client assets on the register
- · Audit & Feedback

STAGE 2: 1-12 WEEKS

- · All agreed assets in custody
- · All assets set up for BAU reporting
- · All documentation loaded onto platform
- Distributions & Realisations to a single GrowthInvest account
- · Access to secondary VCT trading liquidity

ROLLING VCT PROCESS

Once the asset onboard process is complete, our secure online portal consolidates reporting across all assets, whether new investments on platform or the legacy portfolio. This provides a complete portfolio and reporting solution for you and your clients. Once VCTs are dematerialised into a CREST account clients are able to use our unique VCT Reinvestment program. This allows for an intelligent, flexible rolling program of VCT reinvestment, once investments are beyond the standard 5 year holding period.

The standard process for the program is outlined below. Please do not hesitate to contact us to discuss your clients' specific requirements.

Action	Who	Notes	SLAs
Supply existing VCT holdings and proceed with dematerialisation of assets onto the GI Platform.	All	Please refer to Transferring & Onboarding Assets Platform Guide for details on the GrowthInvest service for VCTS to be dematerialised into CREST	Estimated 2-4 weeks*

^{**} Subject to timely notification by the relevant Market maker

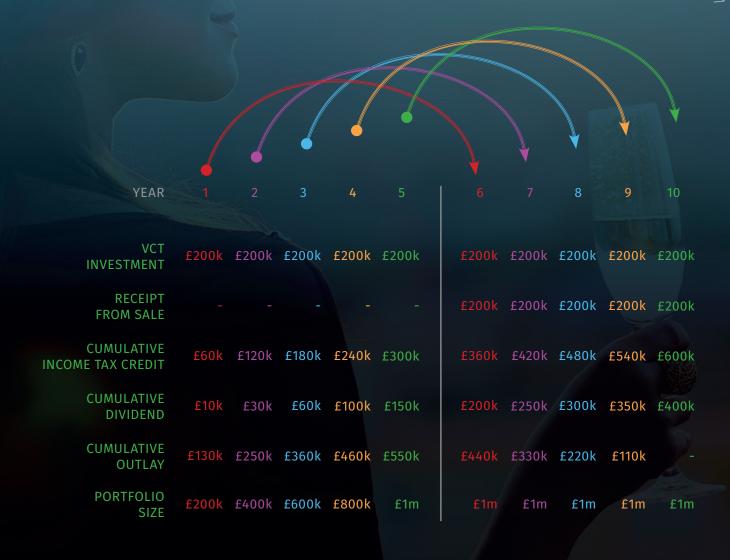

^{***} Post client confirmation

ROLLING ILLUSTRATION

ASSUMPTIONS

Investment Amount : Target Dividend Yield: Income Tax Rate: £200k per annum 5% per annum 30%

NOTE:

The above table is for illustrative purposes only, representing a simplified example of the economics of conducting a VCT rolling program. The target dividend yield is intentionally set below current market rates, actual realised dividends may well differ. Likewise, the above example does not factor in the impact of adviser and/or product charges, NAV performance or indeed any discount to NAV applied upon sale.
